

COMPANY PROFILE

OUR GOAL IS TO BECOME A SOLUTION CENTER FOR ALL ADHESIVE TAPE USERS.

Baobab Import & Export Ltd was founded in 2016 & registered with PACRA & other Zambian statutory institutions.

Trading as Kingtape, we specialize in manufacturing and trading high quality branded Adhesive Tapes and non-adhesive Tapes.

Your Trusted Tape Products

Our range of Tapes are used by enterprises, factories, individuals, mines and constructions companies.

The Directors have several years of work experience in Business Management together with a dedicated group of staff.

Our Mission:

To provide un-paralleled, competitive, quality products to both local and foreign clientele and contribute to economic growth in Zambia and beyond, not forgetting growing the wealth and skills of our Team.

Our Aim:

To share our experience, strength and technical capacity to help choose the right adhesive and non-adhesive tapes for specific usage. We support our client production procedures by providing quality Tapes, best advice and after sales services.

CUSTOM PRINTED TAPE

YOU CAN MAKE YOUR PACKAGES
STAND OUT FROM THE REST.

Custom printed tape is a great way to get your brand recognised. Not only it is a great cost-effective way to market your company, but it enables customers to identify your parcels quickly.

BY USING PRINTED TAPE, YOU CAN MAKE YOUR PACKAGING DESIGN MORE DISTINCTIVE AND RECOGNISABLE.

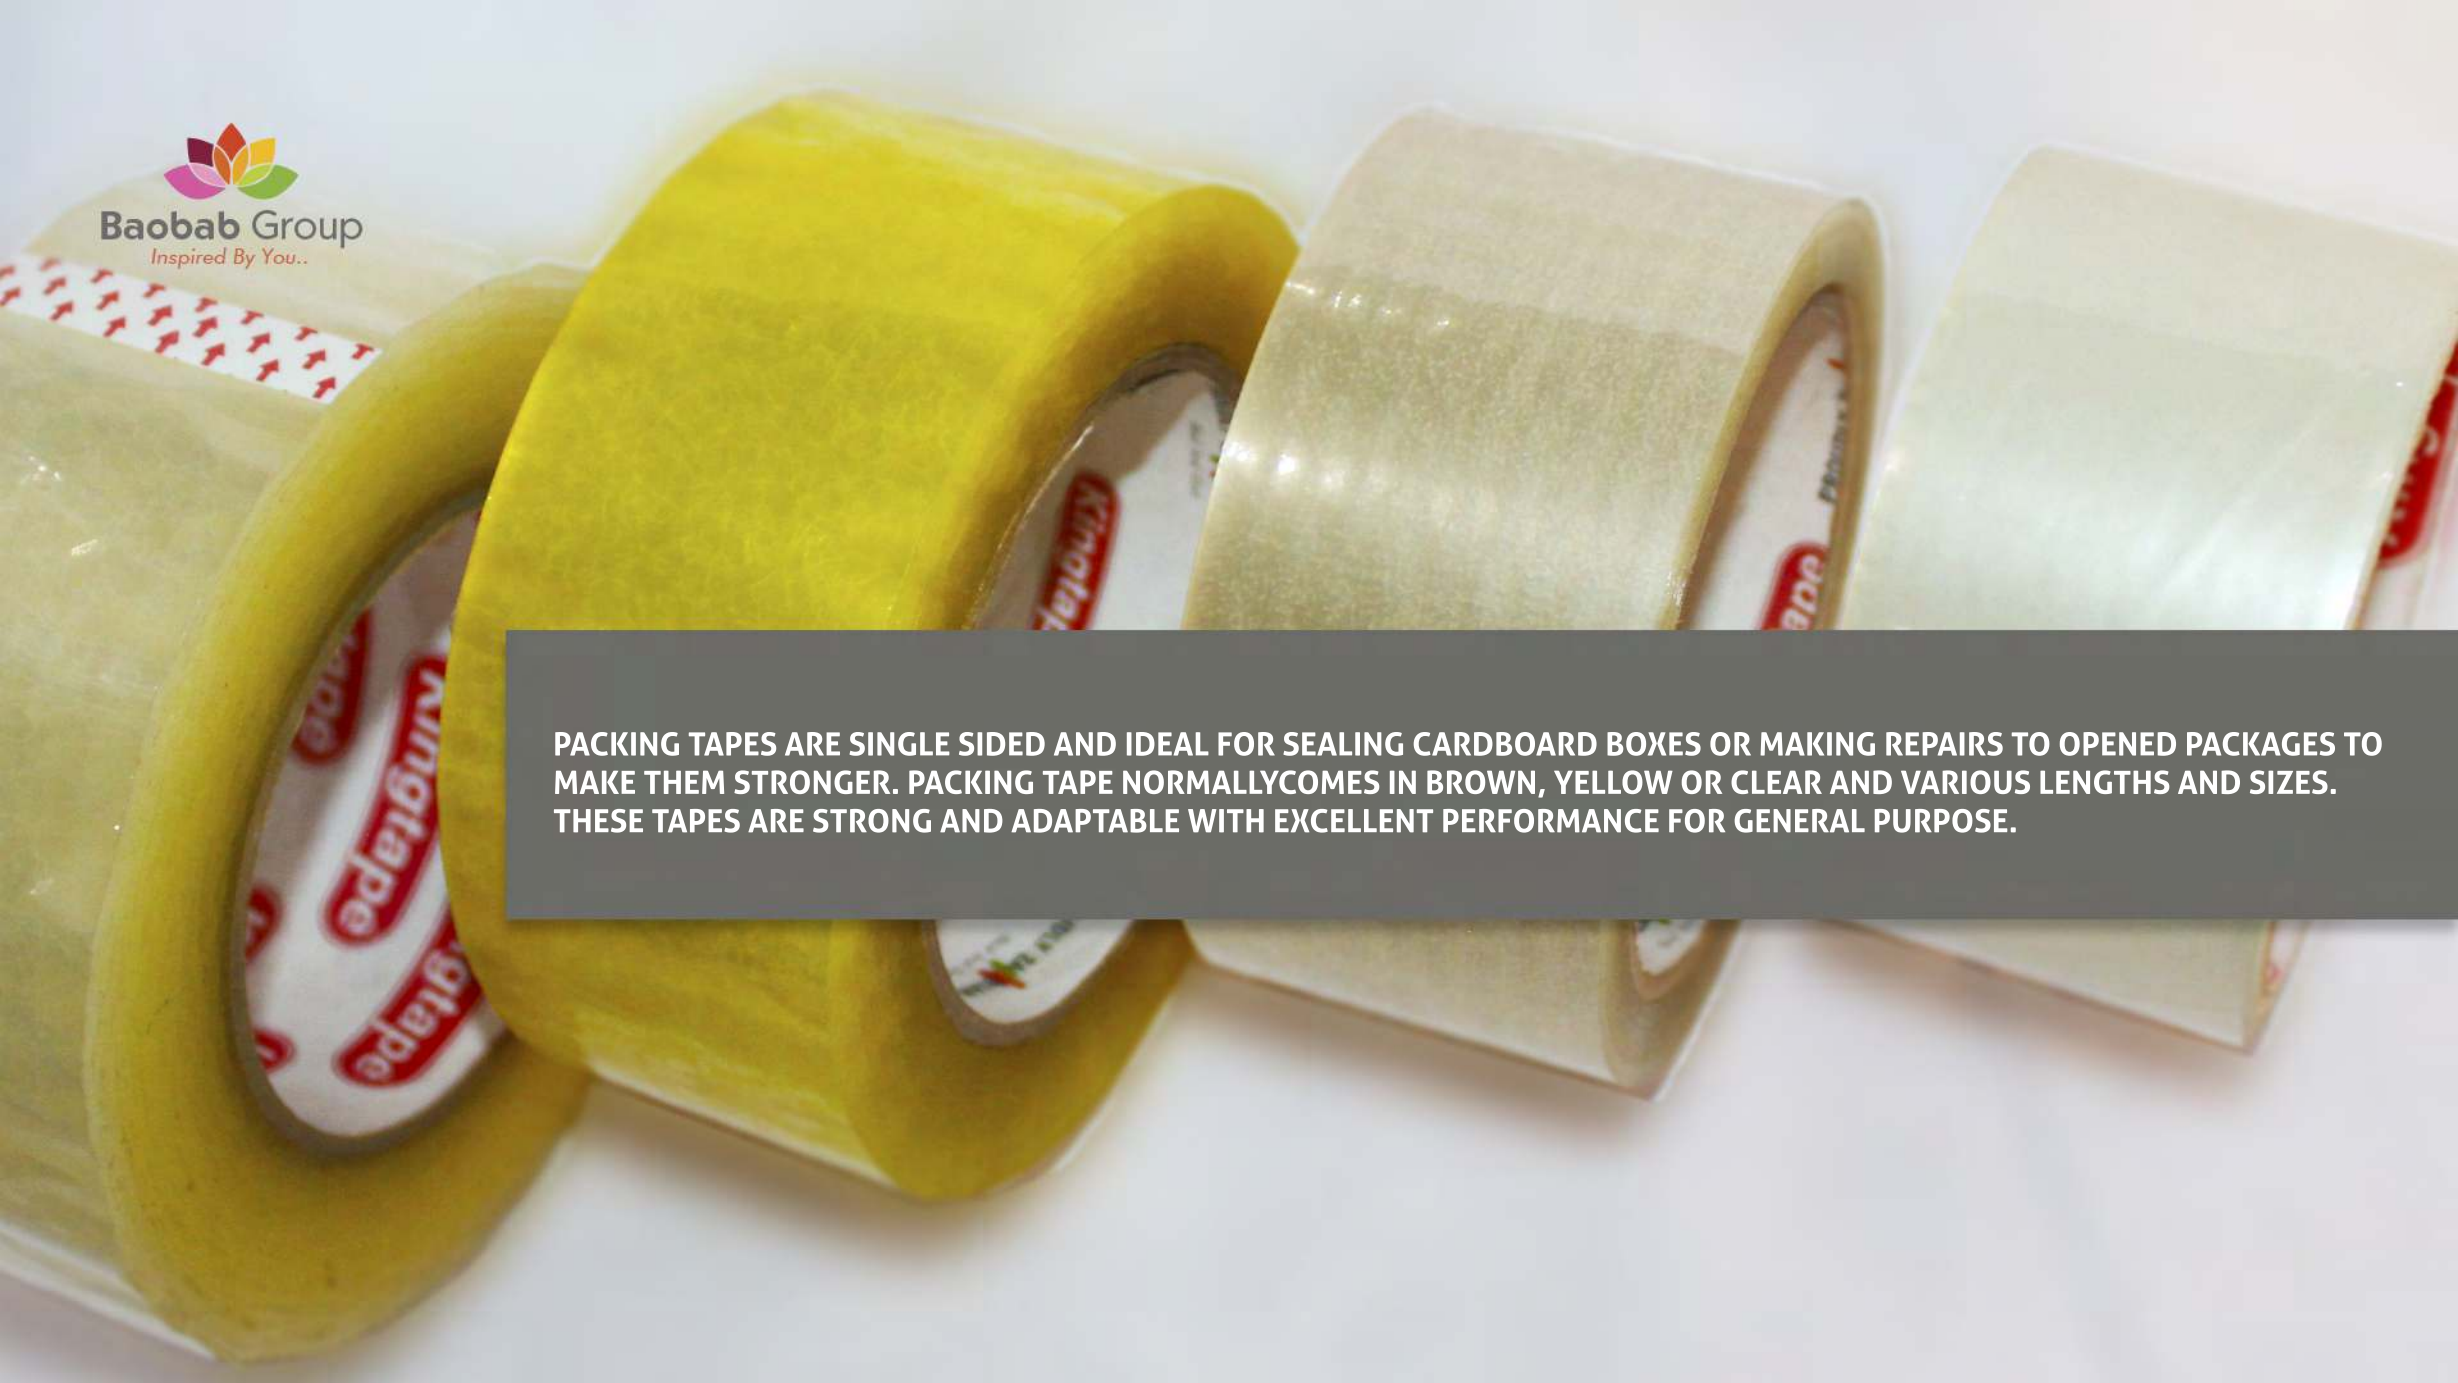

One of the most obvious ways printed tape helps your business is by helping you stand out from your competitors. The more people are exposed to your logo and brand design the better, customers will more likely come to your company again if you have a recognisable and consistent branding. It also appears more professional and shows that you not only have an excellent eye for detail, but also really care about your company's appearance. This will help build consumers' confidence in your business and products.

PACKING TAPE

**PACKAGING THAT MAKES YOUR PRODUCT
COMPLETE.**

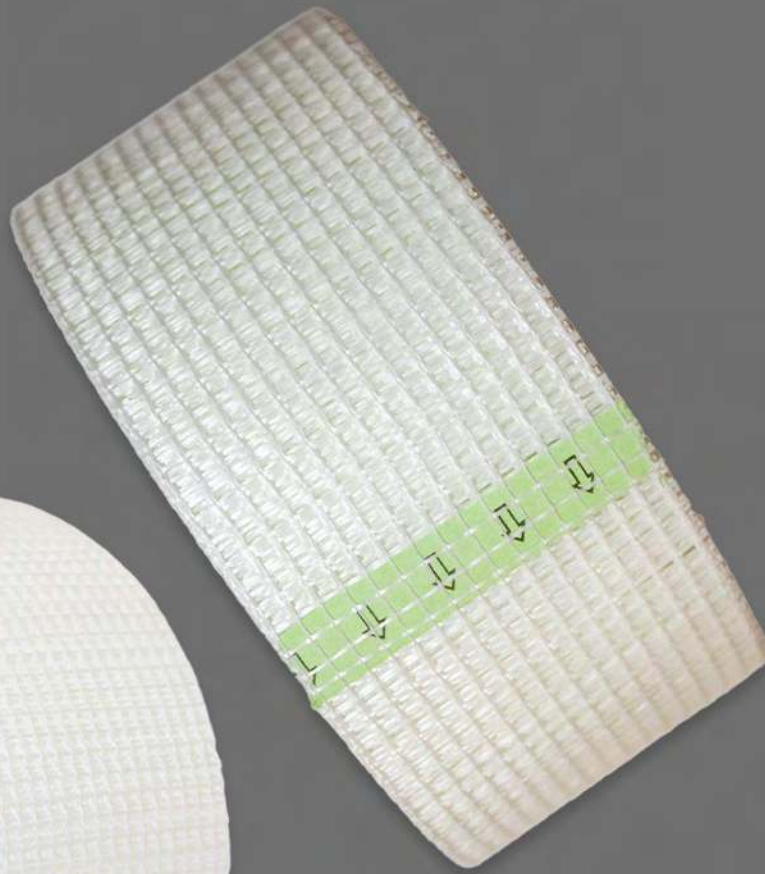

PACKING TAPES ARE SINGLE SIDED AND IDEAL FOR SEALING CARDBOARD BOXES OR MAKING REPAIRS TO OPENED PACKAGES TO MAKE THEM STRONGER. PACKING TAPE NORMALLY COMES IN BROWN, YELLOW OR CLEAR AND VARIOUS LENGTHS AND SIZES. THESE TAPES ARE STRONG AND ADAPTABLE WITH EXCELLENT PERFORMANCE FOR GENERAL PURPOSE.

SIZES INCLUDE BUT NOT LIMITED TO:

WATERPROOF TAPE

Waterproof Tape instantly seals out water, air and moisture. With an extra thick adhesive layer, this flexible tape conforms to form a permanent bond indoors and out. At 4 inches wide use it to patch holes, cracks, gaps and tears, even underwater

NANO TAPE

A synthetic adhesive tape consisting of arrays of carbon nanotubes transferred onto a backing material of flexible polymer tape. These arrays are called synthetic setae and mimic the nanostructures found on the toes of a gecko; this is an example of biomimicry. The adhesion is achieved not with chemical adhesives, but via van der Waals forces, which are weak electric forces generated between two atoms or molecules that are very close to each other.

ADHESIVE TAPE MANUFACTURER

DUCT TAPE

This is a type of adhesive tape made from a polyethylene film and coated with a layer of rubber-based adhesive. It is known for its strong and durable adhesive properties, making it useful for a wide range of tasks, such as sealing ductwork, patching holes, and binding materials together. Duct tape is also commonly used for household and automotive repairs, as well as for arts and crafts projects.
